## §800.4

- (1) Involving local governments and applicants. The Agency Official shall invite any local governments or applicants that are entitled to be consulting parties under §800.2(c).
- (2) Involving Indian tribes and Native Hawaiian organizations. The Agency Official shall make a reasonable and good faith effort to identify any Indian tribes or Native Hawaiian organizations that might attach religious and cultural significance to historic properties in the area of potential effects and invite them to be consulting parties. Such Indian tribe or Native Hawaiian organization that requests in writing to be a consulting party shall be one.
- (3) Requests to be consulting parties. The Agency Official shall consider all written requests of individuals and organizations to participate as consulting parties and, in consultation with the SHPO/THPO and any Indian tribe upon whose tribal lands an undertaking occurs or affects historic properties, determine which should be consulting parties.
- (g) Expediting consultation. A consultation by the Agency Official with the SHPO/THPO and other consulting parties may address multiple steps in §§ 800.3–800.6 where the Agency Official and the SHPO/THPO agree it is appropriate as long as the consulting parties and the public have an adequate opportunity to express their views as provided in § 800.2(d).

## §800.4 Identification of historic properties.

- (a) Determine scope of identification efforts. The Agency Official shall consult with the SHPO/THPO to:
- (1) Determine and document the area of potential effects, as defined in \$800.16(d);
- (2) Review existing information on historic properties within the area of potential effects, including any data concerning possible historic properties not yet identified;
- (3) Seek information, as appropriate, from consulting parties, and other individuals and organizations likely to have knowledge of, or concerns with, historic properties in the area, and identify issues relating to the under-

taking's potential effects on historic properties; and

- (4) Gather information from any Indian tribe or Native Hawaiian organization identified pursuant to §800.3(f) to assist in identifying properties, including those located off tribal lands, which may be of religious and cultural significance to them and may be eligible for the National Register, recognizing that an Indian tribe or native Hawaiian organization may be reluctant to divulge specific information regarding the location, nature, and activities associated with such sites. The Agency Official should address concerns raised about confidentiality pursuant to §800.11(c).
- (b) Identify historic properties. Based on the information gathered under §800.4(a), and in consultation with the SHPO/THPO and any Indian tribe or native Hawaiian organization that might attach religious and cultural significance to properties within the area of potential effects, the Agency Official shall take the steps necessary to identify historic properties within the area of potential effects.
- (1) Level of effort. The Agency Official shall make a reasonable and good faith effort to carry out appropriate identification efforts, which may include background research, consultation. oral history interviews, sample field investigation, and field survey. The Agency Official shall take into account past planning, research and studies, the magnitude and nature of the undertaking and the degree of Federal involvement, the nature and extent of potential effects on historic properties, and the likely nature and location of historic properties within the area of potential effects. The Secretary's Standards and Guidelines for Identification provide guidance on this subject. The Agency Official should also consider other applicable professional, State, tribal and local laws, standards and guidelines. The Agency Official shall take into account any confidentiality concerns raised by Indian tribes or Native Hawaiian organizations during the identification process.
- (2) Phased identification and evaluation. Where alternatives under consideration consist of corridors or large

land areas, or where access to properties is restricted, the Agency Official may use a phased process to conduct identification and evaluation efforts. The Agency Official may also defer final identification and evaluation of historic properties if it is specifically provided for in a Memorandum of Agreement executed pursuant to §800.6, a Programmatic Agreement executed pursuant to §800.14(b), or the documents used by an Agency Official to comply with the National Environmental Policy Act pursuant to §800.8. The process should establish the likely presence of historic properties within the area of potential effects for each alternative or inaccessible through background research, consultation and an appropriate level of field investigation, taking into account the number of alternatives under consideration, the magnitude of the undertaking and its likely effects, and the views of the SHPO/THPO and any other consulting parties. As specific aspects or locations of an alternative are refined or access is gained, the Agency Official shall proceed with the identification and evaluation of historic properties in accordance §§ 800.4(b)(1) and (c).

(c) Evaluate historic significance—(1) Apply National Register Criteria. In consultation with the SHPO/THPO and any Indian tribe or Native Hawaiian organization that attaches religious and cultural significance to identified properties and guided by the Secretary's Standards and Guidelines for Evaluation, the Agency Official shall apply the National Register Criteria (36 CFR part 63) to properties identified within the area of potential effects that have not been previously evaluated for National Register eligibility. The passage of time, changing perceptions of significance, or incomplete prior evaluations may require the Agency Official to reevaluate properties previously determined eligible or ineligible. The Agency Official shall acknowledge that Indian tribes and Native Hawaiian organizations possess special expertise in assessing the eligibility of historic properties that may possess religious and cultural significance to them.

- (2) Determine whether a property is eligible. If the Agency Official determines any of the National Register Criteria are met and the SHPO/THPO agrees, the property shall be considered eligible for the National Register for section 106 purposes. If the Agency Official determines the criteria are not met and the SHPO/THPO agrees, the property shall be considered not eligible. If the Agency Official and the SHPO/ THPO do not agree, or if the Council or the Secretary so request, the Agency Official shall obtain a determination of eligibility from the Secretary pursuant to 36 CFR part 63. If an Indian tribe or Native Hawaiian organization that attaches religious and cultural significance to a property off tribal lands does not agree, it may ask the Council to request the Agency Official to obtain a determination of eligibility.
- (d) Results of identification and evaluation—(1) No historic properties affected. If the Agency Official finds that either there are no historic properties present or there are historic properties present but the undertaking will have no effect upon them as defined in §800.16(i), the Agency Official shall provide documentation of this finding as set forth in §800.11(d) to the SHPO/THPO. The Agency Official shall notify all consulting parties, including Indian tribes and Native Hawaiian organizations, and make the documentation available for public inspection prior to approving the undertaking. If the SHPO/THPO, or the Council if it has entered the section 106 process, does not object within 30 days of receipt of an adequately documented finding, the Agency Official's responsibilities under section 106 are fulfilled.
- (2) Historic properties affected. If the Agency Official finds that there are historic properties which may be affected by the undertaking or the SHPO/THPO or the Council objects to the Agency Official's finding under \$800.4(d)(1), the Agency Official shall notify all consulting parties, including Indian tribes or Native Hawaiian organizations, invite their views on the effects and assess adverse effects, if any, in accordance with \$800.5.
